

Save the Date: October 9-11, 2020

for this International Conference in Providence, Rhode Island!

THE PATIENT, THE PRACTITIONER, AND THE COMPUTER: PROMOTING HEALING RELATIONSHIPS IN THE AGE OF TECHNOLOGY

Research, Practical Solutions, and Innovations from the United States and Around the World

© 2011, Thomas G. Murphy, MD

PROGRAM OVERVIEW

The rapid introduction of the computer and other health information technology into clinical care is changing the relationship between patients and their practitioners. This international conference will bring together leading researchers from around the world to examine what modern science has learned about **best practices for successfully integrating computers into clinical practice, using technology to advance team-based care and patient involvement, software design and innovation that supports healing relationships, ethical stewardship of shared data, and ways that government leaders and healthcare stakeholders can advance information technology that promotes the wellbeing of patients, practitioners, and clinical settings.** The focus will be on research, practical solutions, and innovations from the United States and around the world.

TARGET AUDIENCE

- ◆ Patients and family caregivers
- ◆ Members of the health care team, including physicians, nurses, physician assistants, nurse practitioners, behavioral health professionals
- ◆ Educators of healthcare professionals
- ◆ Researchers in human interaction and technology implementation
- ◆ Software and device designers
- ◆ Government officials, institutional leaders, and healthcare stakeholders involved with technology implementation

TOPICS WILL INCLUDE

- ◆ Successful interprofessional team-based care
- ◆ Advancing the adoption of patient-empowering technology
- ◆ Designing human-centric technology and systems
- ◆ Teaching the use of health information technology to support relationship-based care
- ◆ Ethical stewardship of shared data
- ◆ Keeping practitioners well and resilient
- ◆ Working with government, institutions, and stakeholders to support healing relationships and human capital
